## Blower problems? Go direct to, well, TurboDirect SA

Posted by [LESSTEPHENSON](#) on [AUGUST 28, 2018](#)

- Turbo problems – work with the experts
- OE equipment direct from manufacturers
- Turbo repairs, parts – even complete units

**TURBO IN ACTION.** LV turbo with air exhaust flows, *Image: TurboDirect SA JOHANNESBURG, Gauteng* – Having trouble with or worried about the performance of the turbocharger on your vehicle or other industrial power sources or – worse – the quality and provenance of replacements?

There is a solution...

TurboDirect SA in Isando, Johannesburg, claims to be the leading and most experienced turbo operator in southern Africa as an agency for OEMs Honeywell Garrett, BorgWarner, Mitsubishi, IHI, Holset and other brands.

A turbocharger runs at incredibly high revolutions so maintenance or replacement by professionals is vital; TurboDirect asserts that it is a safe haven for both.

**CHRIS KAMBOURIS:** TurboDirect

SA's founder and MD.

The company opened in the mid-1990s as an automotive performance-based operation to support the local racing industry but its customer base soon expanded into other market sectors – among them OE for passenger and commercial vehicles, agricultural and mining operations, and many other applications.

### **ACCREDITED AGENT**

Flash forward to 2018 and TurboDirect SA is now active in all turbocharger market sectors as a provider of complete turbochargers and all related repair components. It can also offer repairs to any manufacturer's specs and standards.

It is also an accredited agent for all leading international brands and has a strategic partnership with them to supply quality OEM turbochargers such as those from Garrett, BorgWarner, Mitsubishi and many other leading international brands.

### **OFFICIAL MASTER DISTRIBUTOR**

Chris Kambouris, TurboDirect SA's founder and MD, told The Corner in a media release: "One of our many strengths is having unrivalled technical expertise and experience to offer the most comprehensive solution for any turbocharger.

“We’re an official Garrett and BorgWarner master distributor and can supply, repair and balance all makes and models of turbos or supply new genuine-brand turbos to vehicle owners, dealers, and repairers.

ADVERTISING FEATURE

“TurboDirect SA is the official technical face for OE turbochargers on all vehicles – passenger, commercial, generators, compressors, marine, mining, and agricultural . We can service, supply and replace the same turbo that is in your vehicle.”

**GARRETT TURBO:** Genuine new

equipment. *Image: TurboDirect SA*

The company claims to have a proven record of accomplishment in the turbo and related products industry with international OEM brands for all manufacturers models plus a huge range of products designed and manufactured by themselves.

**‘DO YOUR HOMEWORK’**

” Not all of the industry and car owners are aware that our brands are OE,” Kambouris added,” the very same units as in their vehicle. We offer affordable prices and customers can deal direct, have their unit fitted, or pass it on to a repairer.

” Do your homework when repairing, buying, and replacing a turbo or, better still, call TurboDirect SA direct.
